

Maharashtra University of Health Sciences, Nashik
Additional List of Approved Title of Dissertation for Academic Year 2010-11
under the Faculty of Dentistry (Post Graduate)

Sr. No.	Approved Title of Dissertation
Oral Pathology & Microbiology	
1	Expression of caspase- 3 in oral Lichen planus.
2	Morphometric analysis and micronuclei count in buccal mucosa of type-2 diabetes mellitus patients: A Cytological study.
3	Expression of cyclin D1 in oral squamous cell carcinoma.
4	Qualitative analysis of Collagen fibers in Oral submucous fibrosis using Polarizing microscopy.
5	Expression of p63 in oral leukoplakias : An immunohistochemical study.
6	Oral manifestations in patients diagnosed with mucocutaneous disease.
7	A study of oral manifestations & isolation of Candida albicans from subgingival plaque of patients with or without diabetes mellitus using staining and culture method.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University.

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Additional List of Approved Title of Dissertation for Academic Year 2010-11 under the Faculty of Dentistry (Post Graduate)

Sr.No.	Approved Title of Dissertation
Prosthodontics & Crown & Bridge	
1	Speech evaluation in patients rehabilitated with hollow bulb and solid bulb maxillary obturator following maxillectomy: A in vivo comparative study.
2	Evaluation of the relationship between facial asymmetry & temporomandibular joint clicking, pain & deviation during mandibular opening & closing - An in vivo study.
3	A comparative cephalometric study of the relationship of the mandibular incisor teeth and the lower lip, chin and dentoskeleton in natural dentition and complete denture wearers - An in vivo & in-vitro study.
4	A comparative evaluation of flexural strength and hardness of three different commercially available provisional restorative materials stored in dietary simulating solvents- An in vitro study.
5	A comparative study to evaluate marginal integrity & axial wall adaptability of metal copings fabricated by metal laser sintering & conventional technique- An in vitro study.
6	Influence of surface disinfectant on sorption and solubility of different denture base resins processed by compression and injection molding technique- An in vitro study.
7	A comparative assessment of prosthetic status and prosthetic needs among rural & urban adult population at Dhule. An in-vivo study.
8	The influence of occlusal loading location on stress distribution for different implant designs A finite element analysis.
9	An In Vivo and in Vitro evaluation of color stability and bond strength of indirect light cured Gingival colored resin used for characterization of denture base resin.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University.

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

under the Faculty of Dentistry (Post Graduate)

Sr.No.	Approved Title of Dissertation
Orthodontics & Dentofacial Orthopaedics	
1	Evaluation of three different methods of restoration of enamel surface smoothness after debonding using surface roughness tester and optical profile projector- An in vitro study.
2	Gingival display and smile esthetics : variations in perception of dental professionals and laypersons to altered dental esthetics: A comparative photographic study.
3	Panorama of dental malocclusion in patients seeking orthodontic treatment among the age group 13 to 20 years in Kolhapur Population.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University.
- 2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Additional List of Approved Title of Dissertation for Academic Year 2010-11 under the Faculty of Dentistry (Post Graduate)

Sr.No.	Approved Title of Dissertation
Oral & Maxillofacial Surgery	
1	Clinical evaluation of efficacy of isoamyl-2-cyanoacrylate tissue adhesive for primary closure of extra- oral incisions in maxillofacial surgery.
2	Triple blind randomized controlled trial to study the efficacy of arthrocentesis with and without applied high pressure in the management of internal derangement of temporomandibular joint.
3	A comparative clinical study of closure of oro-antral communication with Kruger's modification of Von Rehrmann's buccal advancement flap with Ashley's palatal rotation flap.
4	Ridge augmentation with autologous cortical block bone graft from symphysis- A comparative study for graft uptake by subperiosteal dissection tunnelling technique with conventional buccal pedical flap.
5	A comparative clinical evaluation of Alveolar ridge preservation with/ without the use of synthetic bone substitute after tooth extraction.
6	A prospective study to compare and evaluate local tissue response to indigenous stainless steel and titanium miniplates used in the oral and maxillofacial region.
7	Comparative clinical evaluation of different techniques for mandibular nerve block anesthesia.
8	Comparative evaluation of post surgical healing of third molar sockets using hydroxyapatite- A clinical study.
9	Evaluation of the healing after surgical management of oral submucous fibrosis with buccal fat pad reconstruction.
10	Comparing localization of the inferior dental canal using three radiographic techniques before removal of impacted lower third molars.
11	Efficacy of Autogenous split Calvarial Graft in the management of residual cranial defect.
12	Clinico-radiographic evaluation of graft uptake of autogenous cancellous bone from the anterior ilium in the management of secondary Alveolar cleft.
13	The pectoralis major myocutaneous flap in oral and maxillofacial reconstruction : Prospective analysis of 50 cases.
14	Evaluation of sodium imbalances in patients after Maxillofacial trauma.
15	Clinical evaluation of immediate implants in single rooted teeth.
16	Cephalometric Evaluation of the Pharyngeal Airway Space (PAS) after Orthognathic Surgery and Distraction Osteogenesis of the Jaw Bones- An in vitro study.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University.

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Additional List of Approved Title of Dissertation for Academic Year 2010-11 under the Faculty of Dentistry (Post Graduate)

Sr. No.	Approved Title of Dissertation
Periodontology	
1	Evaluation of clinical efficacy of Chlorhexidine chip as an adjunct to scaling and root planing in chronic periodontitis patients.
2	Comparative evaluation of effectiveness of full mouth disinfection alone versus full mouth disinfection with systemic Doxycycline on the Glycemic control in Type II Diabetic patients with chronic periodontitis.
3	A comparative evaluation of the efficacy of diode laser therapy as an adjunct to scaling and root planing versus conventional periodontal flap surgery- A split - mouth clinical and microbiological study.
4	A comparative evaluation of full mouth disinfection with chlorhexidine and quadrant wise scaling and root planing in the treatment of chronic generalized periodontitis - A clinical and microbiological study.
5	Comparative evaluation of bone mineral density by dual energy X-ray absorptiometer (DEXA) in premenopausal periodontally healthy , pre and postmenopausal periodontitis womens.
6	Effect of scaling and root planing combined with systemic Doxycycline therapy on glycemic control in Diabetes mellitus subjects with chronic generalized periodontitis- A clinical study.
7	Comparative evaluation of Aerosol reduction with and without high volume evacuator in the ultrasonic scaling of chronic generalized periodontitis patients- A clinical and microbiological study.
8	Comparative evaluation of periocol (GTR) plus sybograft (Hydroxyapatite and β tricalcium phosphate), sybograft alone and open flap debridement (OFD) in the treatment of grade II furcation defects - A clinical and 3D- CT study.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University.

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

under the Faculty of Dentistry (Post Graduate)

Sr.No.	Approved Title of Dissertation
Conservative Dentistry & Endodontics	
1	Efficacy of 2% CHX & 2.5% NaOCl in Microbial reduction during root canal treatment - An in vitro study.
2	In-Office and At-Home bleaching - A three month clinical evaluation.
3	To study and evaluate the adaptation of composite with the underline base materials and their effect on micro hardness of composite restoration - An in vitro study.
4	To compare the efficiency of EDTA, Maleic Acid, Dimercapto Succinic Acid against the combination of these with Sodium Hypochlorite in removal of Smear Layer.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University.
- 2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.
