

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Anatomy	
1	Sexual Dimorphism of Maxillary Air Sinus by Computed Tomography.
2	Metrical and Non-Metrical Evaluation of Cranio-vertebral Junction Anomalies in Western Maharashtra.
3	A Study of the Popliteal artery in Cadavers.
4	A Study of Anatomical Variations of Radial Nerve in Cadavers.
5	A Morphometric Study of Dry Human Sacra.
6	Study of level of termination of spinal cord and dural sac on M.R.I.
7	Sex Determination from Femur.
8	Anatomical and angiographical study of circle of willis.
9	Morphometric analysis of sella turcica.
10	Study of variations and measurement of length and maximum external diameter of vessels forming circle of willis in human cadavers.
11	Morphological variations in placenta and their clinical back-ground.
12	Patients Undergoing Chest CT Scans which Include Cervical Region upto the Level of 6th Cervical Vertebra.
13	Study of Cervical Spine by MRI with Special Reference to Degenerative Changes.
14	Study of clavicle for its sexual dimorphism in Marathwada region
15	Estimation of stature from length of ulna in living adults in Marathwada Region.
16	Assessment of gestational age by ultrasonographic measurement of fetal anatomical (biometric) parameters.
17	Sexual dimorphism of maxillary air sinus by radiological method.
18	Study of Palmar dermatoglyphics in pulmonary tuberculosis in Central India Region.
19	Study of Histogenesis of Gastric Mucosa in Human Fetuses.
20	Study of the age onset of hair line recession and its pattern in adolescent population of Vidarbha region of Maharashtra in Central India.
21	Effect of Aspartame on kidney and urinary bladder of mice-A histological study.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Physiology	
1	Comparative study of Anemia in Elderly.
2	Study of Electrophysiological changes and other Cardiovascular parameters in Diabetic patients.
3	Comparative study of vo2 Max and Physical fitness in trained aerobic dancers and working women of some age group.
4	Effects of alternate nostril breathing exercise on cardiorespiratory and autonomic functions in healthy young adults.
5	Co-relation of pulmonary functions tests with body fat percentage in young normal weight and overweight students of MBBS course in age group of 18-25 years.
6	To study aerobic capacity (VO2 Max) in first year medical students.
7	To study body composition and anaerobic capacity in the first year medical students.
8	To study the effects of yoga on some physiological parameters in healthy volunteers between age 30 to 40 years.
9	A study of circadian rhythm of peak expiratory flow rate in healthy young adults.
10	A comparative study of simple reaction time in healthy pregnant and menstruating females.
11	A comparative study of taste sensitivity in pregnant and non-pregnant females.
12	A comparative study of autonomic function tests in severe iron deficiency anaemia patients and healthy controls.
13	An intervention study to evaluate the impact of abacus learning on memory in children.
14	A Study of Basal Lower Esophageal Sphincter Pressures among patients of Bronchial Asthma.
15	A study correlating body mass index and cardiac autonomic function.
16	Study of lung function tests, aerobic and anaerobic power and muscle strength in sportsmen.
17	Assessment of autonomic nervous function in diabetes mellitus patients in relation to duration of illness.
18	Study of hearing loss in type II diabetics: A case control study.
19	Effect of air pollution and noise on pulmonary functions and hearing respectively in traffic police personnel.
20	Study of nerve conduction velocities and reaction time in chronic alcoholics.
21	Visual evoked potential abnormalities and it's correlation with duration in diabetes mellitus.
22	To study the effect of cigarette smoking on malondialdehyde (MDA) level and semen quality of infertile men.
23	Comparative study of High Sensitivity-C-Reactive Protein levels in different stages of chronic obstructive Pulmonary disease.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik
List of Approved Title of Dissertation for Academic Year 2009-10 under
the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Physiology	
24	A study of body mass index, waist HIP ratio and lipid profile in type 2 diabetes mellitus.
25	To study the pulmonary function tests in stone crusher workers.
26	Assessment of ventilation & diffusion studies of flour-mill workers of Nagpur Urban.
27	Some Pulmonary function tests (PFT) and anthropometric profile in patients with type 2 diabetes mellitus.
28	Study of Pulmonary Function Test in flour mill workers and cotton spinning workers as compared to normal healthy subjects.
29	Effect of noise pollution on hearing in Auto- Rikshaw drivers - a BAEP study.
30	The study of production of reactive oxygen species by seminal leucocytes and spermatozoa, and its relationship with seminogram parameters in human male infertility subjects.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University
- 2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Biochemistry	
1	Study of DNA methylation pattern in the promoter regions of p15, p16 and E-cadherin genes from cervical scrapings.
2	Study of biochemical parameters in Diabetes Mellitus type II [DM II].
3	Study of uric acid as an inflammatory biomarker in coronary artery disease.
4	Evaluation of Insulin Resistance, High Sensitivity C - Reactive Protein and Lipid profile in siblings and offsprings of type II Diabetes Mellitus patients.
5	Comparative study of Thyroid hormones, serum Prolactin, Follicular Stimulating, and Lutenizing Hormone in infertile and fertile women.
6	Paraoxonase 1, Its Q192R polymorphism and HDL-CHOLESTEROL in relation to ICCU stay in ischaemic heart disease.
7	To evaluate alterations in plasma lipid profile in patients with untreated oral cancer/ precancerous lesions.
8	Effect of Meditation on Lipid profile of Postmenopausal Women.
9	Study of Major modifiable risk factors in coronary artery diseases.
10	Study of dyslipidemia in chronic kidney disease.
11	Comparative Assessment of Free Radicals in Systemic versus Local Causes of Infertility.
12	Evaluation of filarial recombinant enzyme Glutathione-S-Transferases (GST) and RAL family protein WbL2 as a combination vaccine in filariasis.
M.Sc. Biochemistry	
1	To study the prevalence of iron deficiency anaemia in pregnant women.
2	A study of plasma specific proteins & inflammatory marker in chronic kidney disease patients on hemodialysis.
3	Biochemical study of protein modifications and their effects on cells in diabetes mellitus.
4	Study of comparative sensitivity of acetyl cholinesterase and β - glucuronidase in organophosphorus poisoning.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University
- 2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Pathology	
1	Histopathological study of Pediatric malignant solid tumors.
2	Comparative study of peripheral blood smear, modified centrifuged blood smear and dipstick method in diagnosis of malaria with evaluation of hematological parameters.
3	Histopathological study of soft tissue tumors in adults.
4	Accuracy and diagnostic yield of intraoperative squash smears technique in rapid diagnosis of CNS lesions.
5	Clinicopathological profile of cholecystectomy specimen - A retrospective and prospective study.
6	Pathology of the lungs in neonates - An autopsy study in a tertiary care institute.
7	Breast lesions in a reproductive age group.
8	Leukaemias in children - A Clinicopathological study.
9	Pathology of acute aortic syndrome
10	Pathology of prostate biopsies: A two year study.
11	A pathological study of ovarian tumors.
12	An autopsy study of deaths occurring within 24 hours of hospitalization.
13	Clinicopathological profile of hepatitis in liver biopsy.
14	Morphological spectrum of pulmonary tuberculosis - An autopsy study.
15	Prospective audit : assessment and utilization of platelet units in a tertiary care hospital.
16	Role of fine needle aspiration cytology in primary and metastatic lymphoid neoplasms.
17	Utility of adenosine deaminase levels in cerebrospinal fluid in the diagnosis of tuberculous meningitis.
18	A study of lung pathology in paediatric autopsies.
19	Clinico-pathological correlation of renal biopsy in adult nephrotic syndrome.
20	Clico - Haematological profile in diagnosed cases of malaria.
21	Clinicopathological correlation of congenital malformation of central nervous system.
22	A prospective and retrospective analysis of intracranial space occupying lesions (ICSOL):- A clinicopathological imaging and histopathological correlation
23	A Retrospective and prospective study of correlation of clinical imaging, histopathology and serum prostate specific antigen [PSA] in diagnosis of prostate lesions.
24	Study of cervical cytology and incidence of human papilloma virus in women infected with the human immunodeficiency virus
25	To study the clinicopathological features of patients with haemophagocytosis
26	Evaluation of fascin - 1 expression in transitional cell carcinomas of urinary bladder as a marker of invasion

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Pathology	
27	Correlation of clinical and immunophenotypic expression in acute leukaemias - A flow cytometric study
28	The Prevalence of Aspirin and clopidogrel resistance in cardiac patients
29	A study using D2 - 40 monoclonal antibody as an immunohistochemical marker of lymphatic endothelium in cases of carcinoma breast
30	Correlation of histopathological features with proliferation index and loss of heterozygosity 1p/19q of diffusely infiltrating gliomas
31	Role of nuclear factor kappa beta in pathogenesis of psoriasis
32	FNAC of Head and Neck Masses and It's correlation with Histopathology
33	Study of relationship between platelet volume indices and hyperlipidemia
34	The Study of Peripheral blood and bone marrow changes in HIV Infected persons
35	Clinicopathological Study of Ovarian Tumour
36	Histopathological study of lesions of thyroid gland.
37	Histopathological Analysis of tissue samples obtained at postmortem of prisoners.
38	Histopathological Analysis of carcinoma cervix with special emphasis on its association with HIV/AIDS.
39	Histopathological study of tumours and tumour like lesions of oral cavity.
40	Clinicopathological study of papulosquamous disorders of the skin
41	Study of Fine Needle Aspiration Cytology of breast lesions with histopathological correlation
42	Histopathological study of skin tumours
43	Study of histopathological alteration in endometrium in perimenopausal uterine bleeding
44	Clinico-pathological study of non-neoplastic and proliferative lesions of breast
45	A study of cervical papanicolaou (PAP) smear for detection of neoplastic and non-neoplastic lesions of cervix.
46	Clinicopathological study of head & neck lesions with respect to FNAC, histopathology & Haematological profile.
47	Study of blood cell indices and reticulocyte count in cases of anaemia in females in reproductive age group.
48	Morphological typing of lymphoma with immunohistochemistry studies
49	Study of improved microscopical detection of acid-fast bacilli by: The Modified bleach method and fluorescent microscopy using auramine and rhodamine in cytological preparations.
50	Study of double heterozygosity by high performance liquid chromatography in haemoglobin disorders

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Pathology	
51	Immunohistochemical studies in breast cancer for estrogen and progesterone receptors.
52	Clinicopathological study of testicular lesions
53	Clinicopathological and cytomorphological study of breast lesions
54	Utility of Serum Lactate Dehydrogenase in the diagnosis of megaloblastic anaemia
55	Fine needle aspiration cytology of lymphadenopathies and its histopathological correlation
56	Clinico-pathological study of soft tissue neoplasms
57	Fine Needle Aspiration cytology of mesenchymal tumours.
58	Bone Marrow Trepine Biopsy in Haematological Disorders
59	Study of Adverse outcomes (complications) with their clinico-pathological correlation in sickle cell disease in children & Adolescents
60	Sickle Cell Disease and Malnutrition
61	Cytological study of lymphadenopathy in HIV Positive Patients
62	Prenatal Diagnosis of the Sickle Cell Disease by the technique of PCR
63	Fine Needle Aspiration cytology of lymph node lesions and its role in the diagnosis of malignancies
64	Histomorphological study of endometrium in postmenopausal bleeding & its significance
65	The cytomorphological study of cervical PAP smears for precancerous and cancerous lesions
66	Haemostatic alterations in liver diseases

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Microbiology	
1	Serological Confirmation of Clinically Suspected Cases of Dengue Fever In a Tertiary Care Hospital In Mumbai.
2	Urinary Tract Infections in Post- Operative Catheterized Patients of General Surgery Ward.
3	Identification and speciation of Malassezia in patients clinically suspected of having Pityrias Verisicolor and Sebprrrhaic dermatitis.
4	Biofilm forming capacity in Staphylococci and comparision between its species.
5	Characterization of Staphylococcal Cassette Chromosome mec Types I to V in clinical isoalates of Methicillin Resistant Staphylococcus aureus in a tertiary care hospital in Mumbai.
6	Characterisation and anti microbial susceptibility testing of rapidly growing mycobacteria.
7	Enteropathogens Associated with Acute Infectious Diarrhoea in Children Attending A Tertiary Care Hospital.
8	Comparison of PCR peripheral blood smear and rapid malaria antigen test for malaria diagnosis.
9	A Mycological study of Tinea corporis and Tinea cruris and comparison of trypsination techniques versus conventional technique for recovery of fungi.
10	A study of incidence, risk factors, outcome and associated pathogens, in patients with Central Venous catheters in Medical Intensive Care Unit.
11	Study of Ascitic fluid and comparison of two culture methods for diagnosis of Spontaneous Bacterial Peritonitis (SBP) in adult patients with Cirrhosis.
12	Comparative study of detection of Cryptosporidium organism in fecal specimens by commercially available ELISA and modified acid fast stain.
13	Determiation of Prevalence of Vancomycin Intermediate Resistant Staphylococcus aureus (VISA), Heteroresistant Vancomycin Intermediate Staphylococcus aureus (h-VISA) And Vancomycin Resistant Staphylococcus aureus (VRSA) Among MRSA Isolates In a Tertiary Care Centre.
14	A Cross-sectional study of prevalence of drug resistance in Indian human-immunodeficiency virus type 1 infected, treatment naive pediatric population.
15	A Study of Invitro Antimicrobial Activity of Tigencycline - A New Glycylcycline - Compound.
16	Role of Procalcitonin (PCT) in early detection of bacteremia and sepsis.
17	Bacteriological Study of Urinary Tract Infection in Pregnant Females of Third Trimester.
18	Bacteriological and Mycological study of Chronic suppurative otitis media.
19	Study of Mycological Profile in Corneal Infections.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Microbiology	
20	Study of Mycological profile Among human Immunodeficiency Virus Seropositive Patients.
21	Spectrum of isolates from cases neonatal septicemia and their antimicrobial susceptibility pattern.
22	Detection of extended spectrum β lactamase producing Escherichia coli and Klebsiella species in all clinical isolates.
23	Study of Endometrial Specimens for Tubercular Infection among Infertile Women by Using DNA-PCR.
24	Prevalence of mycotic skin infections in HIV positive patients.
25	Microbiological profile of meningitis in a tertiary care hospital
26	Clinico-Mycological Study of Dermatophytosis in Patients Attending Dermatology OPD.
27	Study of Methicillin and inducible Clindamycin resistance in Staphylococcus aureus.
28	Study on nosocomial wound infections with special reference to Pseudomonas aeruginosa.
29	A study of virulence factors-biofilm formation gelatinase activity. Mannose resistant Haemagglutinin expression and metallo β Lactamase (M β L) production in clinical isolates of acinetobacter.
30	Study of sensitivity to Fluoroquinolones, Aminoglycosides and Macrolides among Staphylococcus aureus isolates.
31	Study of gastrointestinal tract pathogens in HIV positive patients with chronic diarrhoea.
32	Microbiological study of infections in intensive care unit with special reference to antimicrobial susceptibility of isolates.
33	Phenotypic characterisation of coagulase negative staphylococci from various clinical isolates.
34	A Study of Bacteriological profile of ventilator associated pneumonia in tertiary care hospital.
35	Prevalence of Metallo- β lactamases in clinical isolates of Acinetobacter baumannii from a tertiary care rural hospital in central India.
36	Characterization of Candida isolated from patients attending a rural hospital with reference to speciation, virulence markers and antifungal activity.
37	A study on bacterial (aerobic), fungal & parasite etiology of diarrhea and their correlation with CD4 count in HIV seropositive patients attending rural hospitals in central India.
38	Evaluation of nitrate reductase assay for drug susceptibility testing of mycobacterium tuberculosis against first line antituberculosis drugs in a tertiary care hospital in central India.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Pharmacology	
1	Analgesic & Anti-inflammatory activity of venlafaxine in comparison with ibuprofen : An Animal Study
2	Evaluation of the anticonvulsant activity of Quinine in Albino Rats
3	To study the effects of Indian medicinal plants on intestinal mucosal barrier in experimentally produced gastrointestinal dysfunction in animals.
4	To evaluate antidepressant activity of statins alone and in combination with fluoxetine in acute and chronic behavioral models of depression.
5	Evaluation of analgesic activity of Dashmoola formulation by using experimental models of pain.
6	Evaluation of antidepressant activity of Indian Medicinal plants in experimental models of behavioral despair.
7	Prospective Analysis of Prescribing pattern of antimicrobials used in surgical procedures
8	Effect of Buspirone on Blood Glucose level in rats.
9	A Prospective study to Assess incidence of adverse drug reactions in patients prescribed with Haloperidol and Olanzapine used in psychiatric wards and OPD of tertiary care hospital.
10	Study of adverse Drug events in patients attending the gastroenterology OPD who have been prescribed proton pump inhibitor for a period of one month.
11	Drug utilization study in diabetic hypertensive patients in an outdoor patients setting of a tertiary care hospital.
12	A Comparative clinical study of beta blockers versus calcium channel blockers as additional antihypertensive agents in diabetic patients.
13	To Evaluate the effect of lamotrigine carbamazepine and gabapentin in mice models of depression.
14	Comparative study of efficacy and safety of lercanidipine with amlodipine in patients of essential hypertension.
15	A comparative study of therapeutic efficacy and safety of vildagliptin with metformin in patients with type-II diabetes mellitus.
16	Comparison between ondansetron and metoclopramide in prevention of intraoperative and postoperative nausea and vomiting.
17	Clopidogrel and Aspirin versus aspirin alone for the prevention of atherothrombotic events
18	A Comparative, single-blind, parallel group, non-crossover, clinical study of ramosetron versus ondansetron , in chemotherapy induced nausea and vomiting.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik
List of Approved Title of Dissertation for Academic Year 2009-10 under
the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Pharmacology	
19	A Prospective controlled, randomized, open, comparative, parallel, 2-arm study to evaluate the efficacy and safety of FDC of Tolperisone (150mg) and Paracetamol (500mg) in patients suffering from acute muscle spasms.
20	Study of analgesic and anti-inflammatory activity of newer anti epileptics, pregabalin and gabapentin in rats.
21	Comparison of effect of addition of paliperidone and aripiprazole on cognition and psychomotor function in patients of schizophrenia receiving olanzapine.
22	To Compare efficacy and safety of cetirizine and rupatadine in patients of chronic idiopathic urticaria a randomised, double-blind, comparative, parallel group study.
23	Immunomodulatory and antiioxidant activity of andrographis paniculata and comparative study of this plant with Tinospora cordifolia in rats and mice.
24	Reverse Pharmacology of neuropsychopharmacological effects of traditionally used Ayurvedic preparations in experimental animals.
25	Study on effects of piper betle leaves (Paan) extract on pharmacodynamic and biochemical parameters in experimental animals.
26	To study the anti-inflammatory, analgesic and wound healing activity of Tectona grandis linn, stem and leaf extract on rats and mice.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University
- 2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Forensic Medicine	
1	An autopsy study of hanging cases - Two year prospective study.
2	Medico - legal study of death due to burns at tertiary care hospital.
3	A study of correlation of time since deaths with vitreous potassium and sodium - potassium ratio.
4	A study of wrist and elbow joint ossification for age estimation in population of Central India
5	A study of morphological dimensions and weights of vital intracranial, thoracic and abdominal viscera and correlation of it with bodyweight and length of deceased in fatal medicolegal cases at a rural institute of central India.
6	Diagnostic use of pericardial fluid enzymes CPK-MB & LDH for post-mortem diagnosis of myocardial infarction in sudden cardiac death & correlation with histopathological findings.
7	Medicolegal examination of victim of alleged rape case.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University
- 2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. General Medicine	
1	Analysis of Renal Biopsy findings of young Patients with medical renal disease in Sir J.J. Hospital, Mumbai
2	Study of patients of systemic lupus erythematosus with and without antiphospholipid antibodies.
3	Prediction of prognosis of malarial at a tertiary centre in India using four prediction models.
4	Estimation of the glycemic index (G.I.) of diet of patients with diabetes mellitus type 2 of chronic duration.
5	"Study of anaemia in rheumatoid arthritis."
6	"A study of indication, site and complications of central venous catheter's in patient of intensive care unit."
7	Clinical Profile of Subjects Undergoing Polysomnography (Sleep Study)
8	Clinical and lab profile of ATT induced Hepatitis.
9	Study of Minimal Hepatic Encephalopathy in cirrhotic patients.
10	Clinical Profile of Chronic Kidney Disease In A Tertiary Care Hospital.
11	Clinical Study of Chronic Kidney Disease in patients of Acute Coronary Syndrome with special reference to clinical outcomes.
12	To compare the efficacy and safety of single dose colony stimulating growth factor peg-filgrastim over multiple dose filgrastim in primary prophylaxis of febrile neutropenia in chemotherapy of various malignancies.
13	Clinical Profile of Metabolic Encephalopathy in an intensive Care Unit of a tertiary care hospital
14	To study the Clinical Profile of Headache
15	To Study the Various cardiovascular manifestations in chronic kidney disease.
16	To Assess the prevalence of Hypovitaminosis D in patients of rheumatoid arthritis.
17	To Study the prevalence of metabolic syndrome in HIV infected patients on first line antiretroviral therapy.
18	To Study the prevalence of hypogonadism in male patients with type 2 diabetes mellitus.
19	A Cross Sectional analytical study of cognitive function in HIV positive individuals.
20	A study to determine the severity of liver involvement in HBeAg negative chronic HBV infection with marginal elevation of trans aminases.
21	A clinical, biochemical & virological study of HCV Infection in ESRD Patients.
22	To study the clinical and biochemical profile of antitubercular treatment induced hepatotoxicity.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik
List of Approved Title of Dissertation for Academic Year 2009-10 under
the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. General Medicine	
23	Assessing the nutritional status of predialytic and hemodialysis patients.
24	Detection of latent tuberculosis infection in HIV positive individuals with Quantiferon T. B. Gold assay.
25	To Study the Relationship between barthel index and modified rankin Scale Score in assessing functional Outcome in acute ischemic strokes
26	Study of symptomatic Urinary Tract infection in diabetic females & comparison with control population.
27	Clinical profile of tubercular meningitis in HIV Positive Patients.
28	Clinical study of diabetic retinopathy as an indicator of coronary artery disease in patients of type 2 DM.
29	Clinical profile & outcome in hospitalised patient of several acute respiratory infection.
30	A Clinical Profile of Central nervous system manifestations in patients with chronic kidney disease.
31	Clinical profile of neuropathy in HIV Positive patient.
32	Study of Clinical and electrophysiological profile of the patient with focal epilepsy.
33	Study of Electrocardiographic and 2d-Echocardiographic changes in chronic kidney disease among old individuals (> 60 yrs).
34	Clinical profile of dengue and its complications in Sassoon General Hospital Pune.
35	Study of Clinical Course & Prognostic factors affecting course of septicemia.
36	Clinical & Radiological Profile of Young Arterial Strokes.
37	Study of various EEG changes in patients presenting with generalized seizures & its correlation with CT scan or MRI scan (Brain).
38	Clinical profile of cardio vascular abnormalities in HIV positive adult patients
39	Assessment of left ventricular systolic & diastolic function by 2D & doppler echo in obesity.
40	Clinical profile in chronic obstructive pulmonary disease patients and their evaluation with spirometry and 2D Echo.
41	Evaluation of coronary artery disease in asymptomatic perimenopausal and post-menopausal women.
42	Clinical Profile and etiology in patients with non-traumatic intracranial hemorrhages.
43	To study the prevalence of fragmented QRS complex in known cases of coronary artery disease and its correlation with Echocardiography.
44	Clinical profile of neurological complications in HIV reactive patients and their relation with CD4 count.
45	Evaluation of stroke with special reference to carotid artery intima thickness.
46	Study of clinical profile of arrhythmias in acute myocardial infarction during the first 48 hours of hospitalisation.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University
- 2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik
List of Approved Title of Dissertation for Academic Year 2009-10 under
the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. General Medicine	
47	A comparative study of Benign Vs malignant Lymphadenopathy diagnosed clinically and/or radiologically in N.D.M.V.P.S. hospital.
48	Prevalence, presentation, etiopathogenesis and treatment outcome of severe anaemia in adult male patients treated in the medicine ward.
49	A study of diastolic dysfunction in chronic kidney disease.
50	Prevalence of Hypertrophic obstructive cardiomyopathy in patients undergoing cardiac evaluations.
51	Study of peripheral neuropathy in patients with HIV/AIDS on Art.
52	Abnormalities of thyroid function tests as surrogate marker of advanced HIV Infection in adults.
53	A Clinical and CT Scan Study of Partial and Generalised Seizures.
54	Predicting need of ventilatory Assistance in intensive care unit using Apache-II scoring system
55	Study of autonomic dysfunction in Type-II Diabetes Mellitus.
56	Clinical Profile of Ischaemic Heart Disease In Young Adults.
57	Dyslipidemia in Type II Diabetes Mellitus in Patients on Statin Therapy.
58	Study of Phytham Disturbances in Various types of myocardial infarction.
59	Study of Multiple Organ System Failure Dysfunction.
60	A Study of Echocardiographic indices and endothelial function in subject of degenerative aortic valve diseases.
61	Study of Co-Relation between P-Wave Dispersion & Diastolic Dysfunction in patients of essential hypertension.
62	Glasgow coma scale score and QTC Interval in prognosis of organophosphate compound poisoning.
63	Risk factors for acute Ischaemic strokes in young adults (5-45 yrs of age).
64	The Study of Ventilatory Pulmonary Function test in Sickle Cell Hemoglobinopathy
65	Study of C Peptide Levels in acute myocardial infarction.
66	Non Alcoholic Fatty Liver Disease in cases of Type 2 Diabetes Mellitus.
67	Study of Alcoholic Polyneuropathy.
68	Microalbuminuria in Type 2 Diabetes mellitus and its correlation with anthropometry, glycemic control and target organ damage.
69	A Study of Thyroid Profile in acute myocardial infarction.
70	Cardiometabolic Risk Factors in patients of acute coronary syndrome.
71	Revisiting and Evolving Different Criteria to Differentiate between Transudative and Exudative Effusion.
72	Risk factors for chronic liver disease in rural population in Central India : A case - Control Study

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University
- 2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Paediatrics	
1	A Study of mortality, Morbidity and factors affecting outcome in preterm new borns.
2	A Clinico Radiological study of Respiratory illnesses requiring admission in a public hospital.
3	Effect of chelation therapy on physical growth and serum ferritin levels in children with thalassemia major: A comparative study:
4	Prevalance and clinical significance of cardiac murmurs in neonate.
5	Study of spectrum of congenital heart disease and associated anomalies in a tertiary care hospital.
6	Clinical co-relation and evaluation of spirometry in children with asthma.
7	Perception of grandmother regarding breastfeeding.
8	The study of the incidence, etiology, risk factors and outcome of ventilator associated pneumonia in a tertiary care Level III Paediatric Intensive Care Unit of public hospital.
9	Role of Therapeutic Drug Monitoring of Anticonvulsants in Management of Children with Epilepsy.
10	Factors affecting art adherence among children parents perception.
11	Quality of life in children with congenital heart disease following non-surgical cardiac intervention.
12	Assessment of quality of life in patients with epilepsy and nephrotic syndrome and formulation of a questionnaire in the vernacular language of the patients based on peds QI version 4.0 questionnaire.
13	Diagnosis of ADHD in children and follow up after therapy.
14	Neurological comorbidities associated with learning disabilities in children.
15	Outcome and complications of mechanical,ventilation in pediatrics patients at tertiary level pediatric intensive care unit.
16	Comparitive study of efficacy and safety of intranasal midazolam (spray) buccal midazolam and intravenous diazepam in the treatment of acute seizures.
17	A study of the quality of life in children with asthma before and after counseling and treatment.
18	Calf Muscle Circumference (CMC) to Tibial Length (TL) ratio as a surrogate marker of malnutrition in children between 2-10 years of age.
19	To study the Pulmonary and Cardiac manifestations in HIV infected children
20	Correlation of renal length to anthropometric and demographic data in healthy children.
21	Non invasive evaluation of liver parameters in thalassemia major and correlation with serum ferritin levels.
22	The effects of maternal epidural analgesia on the neonate in early neonatal period.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University.

M.D. Paediatrics	
23	Role of Genetics in Premature Birth.
24	Burden of hospitalisations due to rotavirus infection among children in an urban area.
25	Profile of infections in patients of Nephrotic syndrome.
26	Evaluation of Efficacy and Impact of Complementary Feeding (in Quality and Quantity) for overall Growth and Development of the Infant, in Sassoon General Hospital.
27	Clinical and Echocardiographic Evaluation of neonates with heart murmurs.
28	A study of the profile of falciparum malaria in children.
29	A study of the profile of neonatal sepsis
30	Clinical profile of neonatal Jaundice.
31	Clinical Correlation of EEG in Neonates with Perinatal Asphyxia.
32	Analysis of acute peritoneal dialysis in children.
33	Impact of Antepartum Antibiotics on Neonatal Sepsis.
34	Risk factors for development of anaemia of prematurity.
35	Myocardial ischaemia in neonates with perinatal asphyxia electrocardiographic, echocardiographic and enzymatic correlations.
36	The evaluation of the cell phone counselling and baby friendly hospital initiative (BFHI) to improve infant feeding indicators and reduce infant morbidity.
37	The evaluation of the Baby friendly hospital initiative (BFHI) to improve infant feeding indications and reduce infant morbidity.
38	Study of Pulmonary function Tests in Children with Asthma and comparison with Healthy group.
39	Risk Factors in Birth Asphyxia, Morbidity Pattern and Mortality in Birth Asphyxiated Babies.
40	Study of gastroesophageal reflux disease in Children.
41	Profile of malaria in children of urban Hospital.
42	Correlation between clinical features and degree of immunosuppression in HIV infected children.
43	To study Clinical Profile of Neonatal Seizures.

Sr. No.	Approved Title of Dissertation
M.D. Community Medicine	
1	Evaluation of the patterns and determinants of physical & Psychiatric morbidity along with burnout & Stress in Medical Students.
2	Epidemiology of work-related health problems, observance of ergonomic principles and operationalization of appropriate interventional measures among the clerical staff working consumer counters in Government and MCGM run Medical institute in Mumbai.
3	Study the epidemiological profile of taxi drivers in the background of occupational environment, stress & personality characteristics.
4	A Cross-sectional study on assessment of Clients perception in terms of satisfaction and service utilization in an urban Health Centre.
5	A study to evaluate prescribing indicators of prescription practice adopted by interns in urban health centre.
6	Longitudinal study to determine epidemiological factors influencing nutritional status of pregnant women in antenatal and post natal period reporting at urban health centre.
7	An interventional study to determine the effectiveness of intensified pretreatment counseling in enhancing patient compliance in RNTCP in an urban slum.
8	A comparative study of utilization of janani suraksha yojana and matrutav anudan yojana in urban and rural settings.
9	"An epidemiological study of Geriatric Morbidity patterns in an Urban slum of Mumbai with referece to health seeking behavior and Social support systems."
10	"An epidemiological study of Anemia in children below 5 years of age in Urban slums of Mumbai."
11	Assessment of health status of children attending Anganwadi in an urban slum of Mumbai & to provide intervention to improve the health status of malnourished children.
12	An epidemiological study to assess impact of health education, physical exercise, diet control on hypertensive patients in an urban slum of Mumbai.
13	An epidemiological study to assess the effect of health education, dieary Modifications and physical exercise, on the obese individuals in an Urban slum population of Mumbai.
14	An epidemiological study to assess health status of fishermen with emphasis on occupational stress, morbidiities, and addictions in southern eastern coastal area of Mumbai.
15	An epidemiological study of treatment outcome of tuberculosis in patients co-infected with HIV and its comparison with those without HIV infection in patients attending DOTS centre/drop in centre at a medical college and hospital in south Mumbai.

M.D. Community Medicine	
16	A Longitudinal study of acute respiratory tract infection (ARI) among under five children in urban slum area of mumbai.
17	A Study of prevalence of ocular morbidity, its determinants in tribal school children and to assess impact of IEC (Information, Education & Communication) and appropriate interventions on them.
18	Study of prevalence of diabetes and its associated risk factors in tribal area.
19	Impact of IEC (Information, Education & Communication) on nutritional profile of tribal primary School Children.
20	An epidemiological study of road traffic accident cases admitted in a tertiary care hospital in Pune.
21	Seroprevalence of Hepatitis A and E among Armed Forces Trainees at Pune.
22	A study of Knowledge, Attitude and practices of HIV positive individuals working in an armed forces setting.
23	A prospective study of acute respiratory tract infections among children under age of 6 years in rural Maharashtra.
24	A Study of the nutritional status of preschool children in the field practice area of community medicine department of a medical college.
25	A Study of Knowledge, Attitude and practices regarding prevention of complications associated with type 2 diabetes mellitus in patients attending a large teaching hospital.
26	Study of certain risk factors of coronary artery disease among patients attending a tertiary Health Care Centre in Pune.
27	A Prospective study of acute diarrhoeal infections among children under age of 6 years in a rural community of Maharashtra.
28	A Study of knowledge, attitude and practice (KAP) pertaining to initiation of breast feeding amongst mothers at a tertiary hospital in pune.
29	Study of Unmet needs & Family planning practices with their determinants in eligible Couple of Urban Health Center field practice area, Mangalwar peth, Pune.
30	Study of Morbidity among geriatric population with reference to Hypertension, Diabetes, Ocular Morbidity in UHC Catchment Area Of BJMC Pune.
31	A study of Certain predictors of Hypertension among adolescents in the age group of 15-19 Years.
32	Evaluation of certain risk factors of type-2 diabetes mellitus: A case control study.
33	The Study of Prevalance of childhood obesity and associated risk factors in school going children of Aurangabad muncpal corporation area.

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Dermatology, Venereology and Leprosy	
1	Clinical study of hair loss & Utility of folliscope and trichoscan in its evaluation.
2	A study comparing the efficacy of autologous, non-cultured, non-trypsinised, melanocyte-keratinocyte grafting versus automogous, non-cultured, trypsinised melanocyte grafting for stable vitiligo patch.
3	A split face comparative study to evaluate efficacy of combined subcision and derma roller against combined subcision and cryoroller in treatment of acne scars.
4	Utility of BP 180 & BP230 antibody levels in monitoring disease activity & outcome in patient with bullous pemphigoid.
5	An Observational study of Dermatological manifestations of internal malignancies & chemotherapeutic agents.
6	Correlation amongst psoriasis severity indices (psoriasis area severity index, psoriasis quality of life index and lattice physician global assessment index) and the correlation of their severity with N F kappa B expression in skin lesions.
7	Study of pregnancy associated skin changes and skin disorders.
8	Study of the efficacy of Long Pulse Nd:YAG (1064nm) & Q switched Nd:YAG (1064nm & 532nm K.T.P.) in various dermatological conditions.
9	To study nail changes seen in outpatients in dermatology OPD.
10	Study of mucosal cytology in the diagnosis of mucosal lesions in dermatology practice.
11	Comparative study between topical adapalene (0.1%) Vs.combination of topical adapalene(0.1%) & intense pulsed light therapy (IPL) in papules and pustles of facial acne vulgaris.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Pulmonary Medicine	
1	Study of Cardiopulmonary Stress Test in Health.
2	The Effect of Body Mass index on pulmonary function tests.
3	Study of association between sleep apnea in ischaemic heart disease.
4	Use of Beclomethasone /Budesonide and formoterol adjustable dose as single maintenance and rescue therapy(smart) in the management of Bronchial Asthma.
5	To study clinicoradiological profile of idiopathic interstitial pneumonia (IIP) in a tertiary care centre.
6	Prevalence of pulmonary Tuberculosis among OPD attendees with history of cough for more than 2 weeks duration.
7	Assessment of cardiovascular status by non invasive tests in patients of obstructing sleep apnea - a study in tertiary care centre based at Pune.
8	To compare efficacy of induced sputum with bronchoscopic aspirate in diagnosing pulmonary infections in patients of HIV/AIDS.
9	To study the diagnostic and therapeutic utilities of medical thoracoscopy in patients admitted in pulmonary medicine dept.
10	Study of exhaled carbon monoxide (CO) and pulmonary function test in chronic obstructive pulmonary disease (COPD) patients.
M.D. Hospital Administration	
1	A study of psychiatric centre in a tertiary care hospital.
2	A study of cardiac centre in a superspeciality Hospital.
3	A study of medication management in a tertiary care Hospital.
4	A study of costing of cardiac surgery in a tertiary care Hospital.
M.D. Immunohaematology & Blood Transfusion	
1	The effect of Repeated Freezing & Thawing on Vitamin K- Dependent Coagulation Factors & Fibrinogen Levels in Fresh Frozen Plasma.
2	Incidence of Rh phenotypes in voluntary blood donors - a population based study.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

Sr. No.	Approved Title of Dissertation
M.S. Gen.Surgery	
1	Etiology and management of intestinal obstruction.
2	Corelation between Colorectal Carcinoma and Serum Insulin Levels.
3	Study of Open and Laproscopic Nissen's Fundopilcation and their outcome.
4	Surgical Management of Intestinal Tuberculosis.
5	Study of Role of Laparoscopy in Diagnosis and Management of Acute Abdomen.
6	Clinical Profile and Management of Toxic Goitre.
7	A study of the safety and efficacy of staplers in Gastro-Intestinal Surgeries in adults.
8	Study of effectiveness of Tab. CILOSTAZOL in patients of peripheral arterial disease.
9	Short term comparison between endovenous laser ablation and surgical ligation in chronic venous insufficiency.
10	Study of emergency intestinal resection Anastomosis.
11	Etiology,investigations and management in cases of surgical obstructive jaundice in tertiary health centre.
12	Endoscopic evaluation of patients presenting with dyspeptic symptom with incidental finding of cholelithiasis on ultrasound.
13	A Comparison of the proposed surgical Apgar score with the APACHE II score in predicting patient outcomes in surgery.
14	Prospective study of missed injuries in trauma.
15	Case study of pseudocyst of pancreas.
16	A comparative study between circular stapled hemorrhoidectomy and open hemorrhoidectomy.
17	Clinical profile of surgical patients with severe sepsis in ICU setting.
18	Critical evaluation of role of nifedipine and 0.2% GTN ointment in anal fissure against lateral anal sphinceterotomy.
19	Study of Haemorrhoids in the Out Patient Department of a tertiary Care Hospital.
20	Study of Relationship between plantar pressures and body mass index in Diabetic patients and controls.
21	A study of etiopathogenesis and management options in fistula-in-ano.
22	A study of patient profile, etiopathogenesis, investigations and treatment modalities in intestinal obstruction.
23	A Clinical Study of SOL Liver.
24	Clinico pathologic correlation of solitary thyroid nodule.
25	Carotid and Coronary artery interventions in patients of Peripheral Arterial Disease.
26	"Mesentric Ischaemia" Critical analysis of presentation, aetiology and treatment outcome.
27	Evaluate and compare Modified Aluarado's score and ultrasonography in histopathologically proven cases of acute appendicitis.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University
- 2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University

M.S. Gen.Surgery	
28	A Study of the Clinical Profile of Live Kidney Donors and Outcome of Donor Nephrectomy.
29	Clinical Study & Management of Advanced Colorectal Malignancies (Stage-III & IV) in SGH & BJMC, Pune.
30	Study of Clinical profile of intraabdominal CYSTS.
31	To study the clinical profile and efficacy of injection sclerotherapy as a primary treatment in cases of Haemorrhoids.
32	Clinical profile and management of post burn neck contracture.
33	Study of cases of abdominal surgeries with reference to surgical site infections.
34	Study of post accidental facial bone injuries.
35	A Prospective randomized comparative study of mass closure versus layered closure for midline laparotomy incisions.
36	A comparative study of treatment of fistula in ano-fistulectomy versus seton.
37	FNAC of Cervical Lymphadenopathy and its Clinico Pathological Co-relation in peripheral tertiary centre.
38	Clinical profile of wound infections in postoperative patients in the department of general surgery.
39	Postsurgical infection rate in VP shunt surgeries with and without intraventricular antibiotics in addition to IV antibiotics.
40	Management of ureteric calculi.
41	A Comparative study of different open surgical methods of inguinal hernia repair in adults.
42	Etiology, clinical features & management of leg ulcers, a critical evaluation.
43	Critical analysis of malignant breast diseases and their surgical management in A.C.P.M. Medical college, Dhule.
44	Clinical study of diagnostic upper Gastrointestinal endoscopy in various upper Gastrointestinal disorders.
45	A study of the efficacy of adjuvant external ozone therapy in the promotion of healing of diabetic foot ulcers.
46	Clinical profile and management of patients of head injury-A prospective study.
47	A descriptive study of various benign breast diseases in women in MVPS medical colleges & hospital.
48	Role of Laproscopy in Chronic and Recurrent Undiagnosed Abdominal Pain.
49	Comparative study of Laparoscopic Versus Open Appendicectomy.
50	A Study of Laparoscopic cholecystectomy in rural setup.
51	Role of surgery in advanced cancer breast (Stage IIIB & IV) (A rural set up study).
52	Management of Obstructive Jaundice.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

Sr. No.	Approved Title of Dissertation
M.S. Gen.Surgery	
53	The study of clinical spectrum and analysis of factors related to perforation peritonitis.
54	A comparative study to assess pediatric circumcision with the plastibell device technique and conventional dissection technique: A prospective randomised trial.
55	A study of Fourniers Gangrene.
56	Study of Carcinoma Breast, In women under 40 years of age.
57	Study of Intestinal obstruction in paediatric age group.
58	Pattern & outcome of motor cycle related head injuries & impact of helmet use on its outcome.
59	Management of acute abdominal in adults below 45 years of age.
60	Surgical perspective in the management of acute & chronic pancreatitis.
61	A study of laparoscopic repair of peptic ulcer perforation.
62	To study the incidence of peptic ulcer perforation in young adults below 30 years.
63	Clinico-radiological predictors for accurate diagnosis of breast lumps.
64	Study of Laproscopic versus open appendectomy.
65	Comparative study of open versus closed drainage of breast abscess.
66	Clinicopathological and ultrasonographic correlation of acute appendicitis in emergency- A prospective and retrospective study.
67	Role of Laparoscopy in chronic and recurrent abdominal pain.
68	Assessment of result of post therapy (Surgery/Chemo/Radio.) in inoperable gastric / gastroesophageal malignancy.
M.S. Orthopaedics	
1	Evaluation of the result of total knee replacement in various arthritic condition of knee.
2	The comparison of anterior cruciate ligament reconstruction by Transtibial approach and anteromedial portal approach.
3	The Result of primary hemireplacement arthroplasty in management of intertrochantric fracture.
4	Surgical and functional outcome of reconstruction of acromio-clavicular joint dislocation.
5	Study of Factors Affecting outcome of revision total hip replacement Surgery
6	Study of Function and cosmetic outcome of corrective scoliosis surgery in idiopathic scoliosis.
7	A Comparitive analysis of the clinical and functional outcome of high Flexion and standard total knee replacement prosthesis.
8	Comparative study of Clinical and functional outcome in complex and non-complex primary total knee replacement.
9	Prospective clinical study of treatment of tibial plateau fractures using various modalities and their outcomes.
10	Analysis of outcomes of results of Arthroscopic debridement in Osteoarthritis of Knee.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

Sr. No.	Approved Title of Dissertation
M.D. Radiodiagnosis	
1	Role of endovenous laser therapy in treatment of varicose veins.
2	Role of MRI in evaluation of paediatric epilepsy.
3	Role of MRI in evaluation of sellar and parasellar lesion.
4	Role of MRI in evaluation of meniscal and ligamentous injuries of knee.
5	Ultrasound evaluation of rotator cuff injuries and its correlation with MRI.
6	Urography: Various Modalities.
7	Role of USG And MRI In Evaluation of lesions of the female pelvis.
8	Role of CT And MRI In Evaluation of Spine Trauma.
9	Role of USG and CT in evaluation of hepatic masses.
10	Role of doppler ultrasound in third trimester pregnancy to predict fetal outcome.
11	Prospective, correlative study of colour duplex sonography and intra-arterial angiography in peripheral arterial diseases.
12	To study the role of USG and colour Doppler in diagnosis of pelvic masses and its correlation with Fine Needle Aspiration Cytology Examination.
13	Role of MRI in Evaluation of Orbital Pathologies.
14	Role of High frequency ultrasound and MRI in the evaluation of shoulder pathologies.
15	MRI evaluation of sinonasal masses with histopathological correlation.
16	Evaluation of spinal trauma by MRI.
17	Evaluation of Seizure disorders with magnetic resonance imaging.
18	Evaluation of supra tentorial fossa tumors with magnetic resonance imaging
19	Evaluation of breast pathologies using X-ray mammography and ultrasonography.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

Sr. No.	Approved Title of Dissertation
M.S. Otorhinolaryngology	
1	Effects of Microwaves emitted by mobile phone on hearing.
2	Endoscopic Management of Epistaxis.
3	Study of Course of Facial Nerve & Its Variations in 50 Cases of temporal bone dissection.
4	Management of paediatric cholesteatoma_a study of 30 cases.
5	Comperison between open surgical techiques & endoscopic surgical techniques in the management of juvenile nasopharyngeal angiofibroma.
6	To Evaluate the clinical efficacy of otologic 'T' Tube insertion in to the naso lacrimal neo-punctum in cases of endonasal dacryocystorhinostomy.
7	A study of factors affecting outcome following cochlear implantation in children.
8	Study of laryngeal electromyography in vocal fold immobility.
9	Speech restoration by primary versus secondary trachoesophageal puncture following total laryngectomy.
10	Study of prevalence of connexin 26 gene mutations in non syndromic hearing loss (NSHL).
11	Clinico pathologic & Endoscopic Evaluation of nasal masses.
12	Evaluation of Tinnitus.
13	A comparative study between tympanoplasties by : 1) Anterior tucking method. 2) Tragal cartilage support method. 3) In case of subtotal perforation.
14	Role of Nasal Endoscopy in the diagnosis of nasal pathology.
15	Study of tympanosclerosis in chronic otitis media.
16	A Study of Endonasal Dacryocystorhinostomy by using Mitomycin-C Verses Stent.
17	Endoscopic and CT Scan Evaluation of anatomical varriations in nose and paranasal sinuses
18	Vocal cord paralysis - a clinical study.
19	A Study of benign neck masses.
20	Stroboscopic Evaluation of Voice Disorder.
21	Study of clinical profile and management of pars tensa retractions.
22	A Comparative study of different tissues used for tympanic membrane grafting.
23	Comparative study of conventional septal surgery and endoscopic septal surgery

M.S. Ophthalmology	
1	Evaluation of visual prognosis after Nd : YAG laser capsulotomy in cases of posterior capsular opacity.
2	Study of ocular manifestations and its effect on visual acuity in Human immunodeficiency virus positive patients on highly active antiretroviral therapy.
3	Perimetric findings in neuro-ophthalmic disorders using automated techniques.
4	Visual outcome and prognosis in the management of subluxated lens.
5	A study of the management and outcomes of endophthalmitis.
6	Study of prognostic factors Affecting Visual Outcome in Intraocular foreign body.
7	IV Methyl Prednisolone as the first line therapy in acute optic neuritis
8	Analysis of outcome of penetrating ocular injuries in school going children.
9	Selective layer Keratoplasty.
10	A Prospective Comparative study of Corneal Endothelial cell count after phacoemulsification in diabetics and non diabetics.
11	To Evaluate macular thickness using optical coherence tomography in people with diabetes with no retinopathy and compare these findings with subjects with non proliferative diabetic retinopathy and proliferative diabetic retinopathy.
12	To Evaluate the efficacy and safety of intravitreal injection of bevacizumab in the management of complication of various types of retinal venous occlusions.
13	Comparison of Visual fields in patients of primary open angle glaucoma by standard white on white automated perimetry and frequency doubling technology perimetry.
14	To study role of ultrasound biomicroscopy in management of pseudoexfoliation syndrome.
15	Efficacy and safety of double frequency Nd-Yag laser (532nm) photocoagulation in the management of eales disease.
16	A Clinical Study of Infectious keratitis
17	Clinical Study of B-scan USG in posterior segment disorders of the eye
18	Comparison of the corneal endothelial cells loss after manual small incision versus phacoemulsification surgeries.
19	To Study incidence and risk factors of retinopathy of prematurity
20	Comparative study of post-operative astigmatism in sics and phacoemulsification.
21	A Clinical Study of epidemiological aspects and microbiological profile of patients with infectious keratitis.
22	Limbal relaxing incision - cure for astigmatic disturbance.
23	Comparative study of topical anesthesia versus peribulbar anesthesia in phacoemulsification.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

M.S. Ophthalmology	
24	Critical Evaluation of visual outcome in 4 mm Small incision Cataract Surgery by Phacoemulsification technique with MVR blade and 2.8 mm phacoemulsification.
25	A Comparative Study of Fibrin Glue Vs Vicryl Sutures For Conjunctival Autografting in Pterygium Surgery.
26	Profile of Ocular Trauma and visual outcome in open globe injury in a tertiary rural hospital.
27	Assessment of need of Eye Care & Outcome of Cataract surgery in diabetic patients.
28	To Study the frequencies of different intraoperative complications in patients with pseudoexfoliation syndrome.
29	Macular Disorders:- Study of demographic pattern and management trends
30	A study of assessment of management outcomes by Q-switch ND: Yag laser for posterior capsular opacification.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University
- 2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.S. Obstetrics & Gynaecology	
1	The Evaluation of Leiomyoma Uteri & their management
2	A study of maternal and perinatal outcome of pregnancy after 40 weeks.
3	Infertility - Genital Tuberculosis & its Clinicopathological co-relation with peritoneal fluid TBPCR in infertility.
4	Prospective study of obstetric cases referred to tertiary care centre.
5	Multifetal Pregnancy and its Outcome.
6	Factors affecting prevention of mother to child transmission of HIV & HIV PCR in babies for early detection.
7	Evaluation of factors responsible for Anaemia in and development of strategies to reduce incidence of anaemia in antenatally registered women at time of labour.
8	A Comparative study of Letrozole v/s Clomiphene citrate for ovulation induction in cases of infertility.
9	Comparison between McDonald's and Shirodkar's cervical cerclage in the treatment of cervical insufficiency.
10	Prospective comparative study of innovative technique "Circular opening & Concentric Suturing" for lower segment cesarean section with standard lower segment cesarean section.
11	Golden hour management of post partum hemorrhage a study of 100 cases.
12	A Comparative study of efficacy of misoprostol with methylergometrine and PGF2a in active management of third stage of labour.
13	Role of intrapartum transcervical amnioinfusion in moderate meconium stained amniotic fluid and fetomaternal outcome.
14	Evaluation of letrozole for ovulation induction in infertile women.
15	Place of Various routes of Hysterectomy in modern gynaecological practice.
16	Role of Cardiotocography and outcome of pregnancies undergoing antepartum & intrapartum monitoring.
17	Positive predictive Value of Glucose challenge test in Diagnosis of Gestational Diabetes Mellitus.
18	Detection of preterm Labour by a bedside Test - By Determining (IGFBP-1) Insulin like Growth Factor Binding Protein-1 in Cervical Secretions.
19	Study of Feto Maternal Outcomes in Parturients Undergoing epidural analgesia.
20	Use of misoprostol for labor induction - titrated oral dose versus intravaginal route, a comparative study.
21	Study the prevalence of Group B Streptococci in pregnancy.
22	Labour Admission test; A Screening test for fetal distress in labour
23	Study the accuracy of an immunoassay to measure levels of placental alpha microglobulin - 1 in diagnosis of premature rupture of membranes (PROM).
24	Evaluation maternal & Fetal Outcome in Pregnancy with Heart Disease.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University
- 2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.S. Obstetrics & Gynaecology	
25	Digital Photography of cervix after application of Lugol's Iodine
26	Clinical and Microscopic correlation of Vaginal Discharge in patients attending gynaecological OPD at SGH, Pune
27	Study of Outcome of Labour Monitored Partographically with or without Pelvic assessment.
28	A study of active Management of Premature Rupture of Membranes and its outcome at term and at preterm.
29	Study of PAP Samear Screening in women attending antenatal and postnatal clinics.
30	Study of all cases of Antepartum haemorrhage admitted in sassoon general hospitals.
31	Comparative study between foley's traction & dinoprostone gel instillation vs dinoprostone gel instillation alone for labour induction
32	To study the etiological factors and role of Sacrospinous Ligament Fixation in patients with major degree of Uterovaginal prolapse and Vaginal Vault prolapse.
33	Maternal and neonatal outcome in pregnancy with Heart disease.
34	Study of Clinical Methods, USG Technique and Colour Doppler in Diagnosis of intrauterine growth Restriction (IUGR) & Perinatal Outcome.
35	Study of Maternal Morality
36	Pregnancy Outcome after Diagnosis of Oligohydramnios at term
37	To compare efficacy of prophylactic antibiotic therapy versus routine post operative antibiotics in Gynecological Surgeries.
38	Asymptomatic Bacteriuria in Pregnancy.
39	A comparative study of drotaverine hydrochloride and valethamate bromide on cervical dilatation in first stage of labour.
40	The significance of transvaginal sonography in the diagnostic evaluation of first trimester bleeding in a rural setup.
41	Common umbilical cord accidents and their effect on the immediate postnatal outcome.
42	Viginal birth after cesarean and its safety.
43	Clinical study of Maternal Mortality in a Tertiary care centre at G.M.C. Aurangabad.
44	Analysis of present mode of delivery in women with previous one cesarean section.
45	Comparative Study of safety & efficacy of vaginal misoprostol and dinoprostone gel for the induction of Labour.
46	Cerebral- Umbilical doppler ratio as a predictor of perinatal outcome in pregnancies with hypertension disorders.
47	Study of perimenopausal bleeding to find out aetiological factors and compare different treatment modalities of perimenopausal bleeding.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University
- 2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.S. Obstetrics & Gynaecology	
48	Clinico-pathological correlation of abnormal uterine bleeding at the perimenopausal age.
49	Clinical study of uterine prolapse with special reference to urinary tract changes as assessed by ultrasonography
50	Risk of Hypertension in pregnancies complicated by preeclampsia.
51	Maternal and perinatal outcome in pregnancies complicated by gestational diabetes mellitus.
52	A study of outcome of pregnancy in mothers having one previous caesarean section.
53	Comparative study of vaginal hysterectomy with abdominal hysterectomy for enlarged uterus.
54	Maternal and perinatal outcome in pregnancies complicated by placenta previa.
55	Maternal and Foetal Factors in low Birth Weight Babies.
56	To study and compare the efficacy of tocolytics and interleukin-10 analogue in management and outcome in patients of premature rupture of membrane.
57	The study of Ultrasonographic Fetal Weight Estimation to determine the accuracy of widely accepted formulas for fetal Weight.
58	Assessment of thyroid status during pregnancy and its effect on pregnancy outcome.
59	Obstetrical outcome in cases with previous one Lower Segment Caesarian Section.
60	Retrospective analysis of records of cases of fetal growth restriction (FGR) to know the relationship between anaemia & FGR and prospective study of pregnant women with FGR to find out correlation between anaemia, cardiac output and FGR / maternofetal outcome.
61	A retrospective study of women with Cervical abnormalities, their follow up compliance, progression and regression of disease along with a Prospective study of Benign and Premalignant cervical lesions, their clinical and cyto-histopathological correlation with special reference to Human Papilloma virus infection.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Anaesthesiology	
1	To study & compare efficacy of Ropivacaine & Bupivacaine for caudal analgesia in paediatric patients.
2	Pain on Injection of propofol - effect of pretreatment with lidocaine, lidocaine-fentanyl and intravenous paracetamol - A comparative study.
3	Clinical evaluation of two supraglottic airway devices- I Gel V/S laryngeal mask airway supreme in Anesthetised adult patients.
4	Comparative study of intra-articular clonidine and bupivacaine for post operative analgesis in patients undergoing arthroscopic knee surgeries.
5	A comparison of Sevoflurane- propofol versus sevoflurane or propofol for laryngeal mask airway insertion in adults.
6	Randomized prospective study to compare Bupivacaine verses Ropivacaine as peritoneal instillation for preventing post operative pain following laparoscopic cholecystectomy.
7	Role of injection ropivacaine (0.2%) in thoracic epidural analgesia for off-pump coronary artery bypass grafting surgery.
8	Randomized prospective study of patient controlled epidural analgesia using fentanyl & bupivacaine versus patient controlled analgesia with intravenous morphine for major abdominal surgery.
9	Efficacy of pretreatment to prevent withdrawal response associated with Rocuronium: A comparison of fentanyl with ketamine.
10	A prospective study of comparison of intrathecal ropivacaine (0.75%) 15mg with 25mcg fentanyl and bupivacaine (0.5%)10mg with 25mcg fentanyl for lower limb surgeries.
11	Comparison of iv paracetamol with iv diclofenac for post operative analgesia after neurosurgery.
12	Perioperative assessment of left ventricular function in patients with mitral stenosis undergoing mitral valve replacement: A comparison between tie index (T.I.) and ejection fractions (EF).
13	Preincisional infiltration of ropivacaine compared to bupivacaine for post operative pain relief after tonsillectomy in children.
14	Comparison of truview EVO2 and McCoy laryngoscope for tracheal intubation using malleable or straight or directable stylet.
15	Prospective randomized study for evaluation of effect of timing of injection dexamethasone administration on it's efficacy as prophylactic antiemetic for post-operative nausea and vomiting in patients undergoing laparoscopic surgeries.
16	Comparison of haemodynamic responses in normotensive & hypertensive patients among three intubations devices: macintosh laryngoscope, intubating laryngeal mask airway & lightwand.
17	A Comparative evaluation of Truview and Macintosh laryngoscopes for tracheal intubation.
18	Caudal analgesia in children: 0.2% Ropivacaine v/s 0.2% Bupivacaine.
19	A Comparative study of combined spinal epidural anaesthesia (CSE) and general anaesthesia (GA) in patients undergoing per cutaneous nephrolithotomy (PCNL)

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Anaesthesiology	
20	Comparison of the effect of intravenous Nalbuphine versus Fentanyl on blocking the circulatory responses to tracheal intubation and intraoperative propofol requirements in patients undergoing laparoscopic cholecystectomy.
21	Comparison of continuous epidural infusion of 0.125% Ropivacaine + 1ug/ml Fentanyl vs 0.125% Bupivacaine + 1up/ml Fentanyl for postoperative analgesia in major abdominal surgeries.
22	A Double blind comparison of combination of 0.1% Ropivacaine & Fentanyl to combination of 0.1% Bupivacaine & Fentanyl for extradural analgesia in labour.
23	I-Gel vs LMA-Proseal: Comparison of two supraglottic airway devices in short surgical procedures.
24	A dose finding study of propofol for insertion of I-gel vs LMA by Dixon's up and down method.
25	Comparison of transdermal diclofenac patch with intramuscular diclofenac for post operative analgesia in patients undergoing lower limb orthopaedic surgery under subarachnoid block.
26	A prospective double blind randomized study of comparison of effect of Ropivacaine (0.5%) and Bupivacaine (0.5%) for brachial plexus block by supraclavicular approach for upper limbs surgeries.
27	A Comparative study between use of propofol and isoflurane in Endoscopic nasal sinus surgery.
28	Evaluation of oral pregabalin as pre-emptive adjuvant on post-operative pain in patients undergoing surgeries under spinal Anaesthesia.
29	A Study of effects of core temperature in patients undergoing laparoscopy surgery.
30	Haemodynamic changes during etomidate - midazolam Vs thiopentone - midazolam co-induction in patients undergoing Off. Pump Coronary artery bypass (OPCAB) surgery.
31	The Association of serum lactate levels at admission and mortality in patients suffering from severe sepsis, independent of organ failure and shock.
32	Study the effect of addition of clonidine as an adjuvant to bupivacaine for increasing the duration of brachial plexus block: A Randomized controlled trial.
33	A Comparison of prophylactic granisetron, clonidine, pethidine and placebo in preventing postanaesthetic shivering in abdominal surgery under general anaesthesia : A randomised control trial
34	To study the effect of pregabalin and dexamethasone for postoperative pain control in benign anorectal surgery
35	"A Comparison of Epidural Analgesia With 0.2% Ropivacaine Versus 0.125% Bupivacaine during Labor.
36	The efficacy of transversus abdominis plexus block (TAPB) in providing effective postoperative analgesia after abdominal surgery: A Randomised control trial.
37	To study effects of Age and Gender on intravenous midazolam premedication in a large teaching hospital.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Anaesthesiology	
38	A Comparative study of clonidine 1.5micg/kg, clonidine 1micg/kg and a commonly used drug tramadol 1mg/kg as adjuvants in supraclavicular approach of brachial plexus block.
39	Comparison of intranasal Midazolam Vs. intranasal Ketamine for preanaesthetic sedation in paediatric patients
40	Comparison of the effects of lidocaine, lidocaine plus clonidine, lidocaine plus tramadol for intravenous regional anesthesia.
41	To Study the efficacy of nalbuphine for post - operative pain relief & compare with efficacy of well proven analgesic - Pentazocine.
42	Caudal clonidine in pediatrics - A Comparison with caudal tramadol.
43	Comparison of intravenous Labetalol versus Sodiumnitroprusside for the treatment of hypertension in postoperative period after coronary artery bypass graft surgery.
44	Evaluation of post succinylcholine Myalgia and Intubation conditions with rocuronium Pretreatment : A comparison with Vecuronium
45	Comparison of Haemodynamic effects of colloids; Hydroxyethyl starch (Voluven 130/0.4) solution and Succinylated gelatin (Gelofusin 4%) for preloading in spinal anesthesia and study of their effects on coagulation.
46	Efficacy of gargling with ketamine Hydrochloride to attenuate post-operative sore throat (post): Case Control Study.
47	Spinal Anaesthesia for LSCS-Comparison between heavy bupivacaine and heavy bupivacaine with fentanyl.
48	A comparative study of laryngoscopic view by truvieview EVO2 and macintosh laryngoscope in anticipated difficult intubation.
49	Comparison of Bupivacaine-clonidine mixture with plain bupivacaine for caudal analgesia in children.
50	Comparison of perilaryngeal airway (COBRA PLA) and laryngeal mask airway in anaesthetized patients for short elective surgical procedures.
51	The comparative study of two Techniques of lumbar plexus block by anterior and posterior approach for lower limb surgery.
52	Comparative study of Lignocaine 0.5% and Ropivacaine 0.2% for intravenous regional anesthesia for upper limb surgeries.
53	Comparative study of the efficacy of Laryngeal Mask airway (LMA) over Endotracheal Intubation in Children.
54	To evaluate the efficacy of ketamine gargle in the prevalence of post-operative Sore Throat due to Endotracheal Intubation.
55	Sevoflurane compared with Halothane for Tracheal Intubation in Children.
56	A Comparative study of ropivacaine versus bupivacaine for spinal anaesthesia
57	A comparative study of Bupivacaine-clonidine versus plain bupivacaine for spinal anaesthesia.

Note:- 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University

2) The above mentioned Titles of Dissertation are the only approved Titles. These doesn't depict that, the Dissertation of P.G. students is accepted by the University

Maharashtra University of Health Sciences, Nashik

List of Approved Title of Dissertation for Academic Year 2009-10 under the faculty of Medicine (Post Graduate)

Sr. No.	Approved Title of Dissertation
M.D. Anaesthesiology	
58	Supraclavicular Brachial Plexus Block with & without - dexamethasone - A Comparative Study
59	Evaluation of paediatric Neurosurgical patients with intranasal midazolam for preanaesthetic sedation
60	Comparative study of CSEA with low intrathecal doses of 0.75% Ropivacain & Bupivacaine 0.5% using epidural volume extension technique with spinal anesthesia using Bupivacaine 0.5% in lower abdominal gynecological surgeries.
61	Clinical evaluation of 0.75% Ropivacaine for spinal anaesthesia.
62	Effect of electrocautery maze procedure and amiodarone in rheumatic valvular Heart Disease patients with atrial fibrillation undergoing valve replacement surgery.
63	Clinical evaluation of caudal clonidine as an adjunct to bupivacaine in paediatric patients.
64	Comparative study of the effectiveness of Ondansetron and Ondansetron - Dexamethasone combination for the prevention of Postoperative Nausea and Vomiting in adults (18-55 years) undergoing Middle Ear Surgery.
65	Comparative study of Bupivacaine versus Ropivacaine in transverses abdominis plane block for postoperative analgesia in lower abdominal surgeries.
66	Comparision of intrathecal ropivacaine with bupivacaine in urological surgeries.
67	Effect of Magnesium Sulphate and Clonidine on propofol consumption, hemodynamics and postoperative recovery using Bispectral Index (BIS) in elective surgeries.
68	Comparision of Outcomes of Bispectral index guided anaesthetic drug administration versus standard practice without Bispectral index monitoring in Elective Laproscopic Surgeries.
69	Success of tracheal intubation with intubating laryngeal mask airway (iLMA): with or without muscle relaxant.
70	Comparison of Truview EVO2 blade with Macintosh blade for intubation.
71	Use of intrathecal midazolam to improve perioperative analgesia in patients undergoing lower limb surgeries.
72	Comparision of intrathecal Bupivacaine Versus Bupivacaine and Clonidine in paediatric age group.

- Note:-** 1) Approved Title of Dissertation shall be considered as the final Title of Dissertation, while submitting the final Dissertation to the University
